Model RD-40-INW Tank Turning Roll

Standard Features Model RD-40-INW

- Push button pendant control with maintained for, stop, rev and speed adjustment.
- Infinitely variable wheel center distance by [hand wheel through lead screw](#) allows for fast center distance adjustment and optimum contact angle.
- Heavy duty worm [gear drives](#) on each drive roll eliminates the many problems associated with drive shaft systems.
- Each drive system is oil immersed for long life and sealed from contaminants such as weld spatter and slag.
- Fully machined top bed on idler and drive roll for perfect alignment.
- AC inverter drive with [LED frequency display for speed adjustment](#).
- Highest quality design and construction available for years of trouble free service.

Specifications Model RD-40-INW

Maximum load capacity per set.....	88,000 lb (40000 kg)
Work-piece diameter range.....	15.7 to 157 inches (400mm to 4000mm)
Roll Speed.....	3.9 to 39 ipm (100 to 1000 mm/min)
Drive Motors.....	Qty 2 – 1 HP (0.75 KW)
Approximate Weight.....	3960 lbs (1800 Kg)
